(apecial to the evening world.)
RACE TRACE, BRIGHTON BEACH, L. I., Aug 3. The meeting was continued here to-day with clear and warm weather and a decided crease in the attendance over Mouday. The track was heavy from last night's rain, especonsiderable scratching out of the fifteen named to go in the first race. Only nine faced the starter, with Early Blossom a big favorite. Tattler was the best played of the others. The race proved to be nothing more than an ordinary gallop, for the favorite, who won

The second race was for maiden three-yearolds, and a poor lot faced the starter. St. Hubert opened about 8 to 5 in the betting. out when Mike Dwyer's commissions went in on him his price was quickly knocked down post. The next race was the event of the day. It was a mile and a sixteenh for the \$1.000 purse. Prontenac was the only one to decline the issue, leaving six to go to the post. It was a fine betting race with old Tea Tray going to the front a slight invorte over Lepanto. The race was won by Willie L. from his stable companion Tea Tray.

> Here Nearly a Week in Secret at Warrants Charging Them and the Milholland's House.

Attend the Conference.

O'Donnell, the lender of the Homestead strikers, has been in the city for nearly week, stopping at the house of John R. Milholland. Milholland is Vice-Prosidential Candidate Whitelaw Reid's literary factotum, and by virtue of his former position in the Contract Labor Bureau at Kilis Island chief adjuster of labor troubles for the Republican party.

O'Donnell, it is said, came to this city for the purpose of conferring with the Republican leaders with a view of enlisting their aid for the settlement of the Homestead troubles between the Carnegies and their employees.
When O'Donnell left Homestead so suddenly and mysteriously, and his wife and the Amal gamated Association Advisory Committee claimed they did not know where he had gone, he came directly to New York.

It was the intention to keep secret hi presence and the object of his visit here, and also the fact that he was to meet Chris L. Mages, of Pittsburg, the leader of the West Mr. Magee, too, has been in the city for

The impression prevails that the Republicans intend to make political capital out of the Homestead troubles by posing as the friend of labor.

It is understood that as a result of the conferences between O'Donnell and Magre negotiations with the Carnegle people have already been begun, and that peace will be made on terms estimaterly on both sides.

The negotiations have been conducted from this city and the medting with O'Donnell in New York, it is said, was arranged to avoid publicity uatil the Republicans were ready to spring the story as sensational campaign thunder.

turers that his intervention would have their approval.

It is well known that it has been President Harrison's desire that the Homestead troubles should be settled because the Iron industry is fostered by the tariff, and it has been charged that the tariff was responsible for the difficulty over the wages paid to the men.

Milholiand is very close to Mr. Held, and as Mr. Keld's interests politically are identical with those of the President, it is supposed that Milholiand has been acting under orders from Washington or Mr. Reid.

Neither Magee, Milholiand nor Welshons would discuss the matter this morning, and O'Donnell would not or was not allowed to see reporters.
